MESSES, ALLISON BROTHERS, Memphis, Tenn.;

FRIARS POINT, MISSISSIPPI, July 20, 1876.

Gentlemen - I baya dania. MESSES. ALLISON BROTHERS, Memphis. Tenu:

Gentlemen—I have during the post season, had in successful operation the "C. C. C."
purchased of you. I am greatly pleased with it, and consider it an absolutely indispensable
machine in every gen-house. All its claims have been fully sustained, and I think you have
not, in the least, exagerated its merits. It certainly takes all the dust and dirt out of cotton,
leaving it in a beautiful condition for the work of the gins. Its most apparent benefit is, of
course, upon the lower grades, but I believe it will very much enhance the quality of all cotton—the first as well as the last plexings. You's, truly,

D. L. CHILDNESS.

Messes Allison Brothers, memphis:

I have had the "Complete Cotton Cleaner," bought of you, in constant operation, and it works to perfection. Mine more than paid for itself it two weeks work.

I can gin and make a good sample of cotton from the pickings, from the ground, as also that eatherest with bolts. Cotton picked with ordinary care is improved one-fourth to one-third in value, at present prices. With the aid of the "C. C. C." I can work up and gin camp cotton without trouble. I find that with cotton from the "C. C. C." my gin ploks the lint off more readily and with less draft. Yours, etc.,

Memphis, Tennessee, July 1, 1878. ROWLEY'S LANDING, MISSISSIPPI RIVER, ARK., January 25, 1876.

MESSES. ALLISON EROTHERS, Memphis:

Gentlemen - I used the "Complete Cleaner," bought of you, on my entire crop last year and it gives me pleasure to said my testimony to its excellence. The machine does all you claim for it, thorous bly cleans the cotton of all dust, dirt and small trush loosens and lightens it, thus enabling the gin to do better and more work, with less draft and less wear of machinery, makes merchaotable cotton of much that would be a total loss, and while in every way it adds greatly to the convent nice of the ginner, it adds equally as much to the PROFIT of the pla ter. Especially in these days of Low PRIOES, is it "an indispensable machine to every cotton planter or ginner."
